Autosofted EasyEyes Download For PC

The official free app for the EasyEyes range of LCD monitor screens. Includes a schedule mode that works with all of the EasyEyes models. EasyEyes Free Monitor Color Temperature Add-On Description: Autosofted EasyEyes Free Monitor Color Temperature Add-On is a free add-on for Autosofted EasyEyes, the official free app for the EasyEyes range of LCD monitor screens. EasyEyes Free Monitor Color Temperature Add-On Features: Promotes good eye health and helps you get to sleep better. Very lightweight, simple and user friendly. Controls your monitor's color temperature (tints) and monitor brightness. Easily adjust your monitor's color temperature (tints) and monitor brightness. EasyEyes Free Monitor Color Temperature Add-On Tips: Simple as they say on the website Enhance your monitor's color temperature (tints) and monitor brightness using the instructions in the screenshots, which are available in the settings menu of the app. With your eye health in mind, you may want to alter the monitor's color temperature (tints). The colors that the monitor projects onto your eyes will more closely resemble those that are present in sunlight. However, increasing the monitor's color temperature (tints) can also make your eyes tired. Easily adjust your monitor's brightness. Auto night light is provided by the AutoNightLight feature. Also, the AutoNightLight feature can be used as a night light. The AutoNightLight feature can also adjust the brightness of any screen that has a built-in dimmer function. Autosofted EasyEyes Free Monitor Color Temperature Add-On is a free add-on for Autosofted EasyEyes, the official free app for the EasyEyes range of LCD monitor screens. Best monitor phones and computer monitor phones 2017. Best Monitor phones are the best Smartphone for viewing large digital display screens. This article has covered the laptops, computers, computer monitors & smartphones with built-in WideScreen, FullHD LED or Plasma type displays. Monitor phones are LCDs (flat panel displays) which function like a monitor or display screen for laptops, computers, etc., and also as a Smartphone built-in display screen. They are also useful as auxiliary viewing devices. A large flat-
